Deploy Access Server

Click on the Account to login and it will Automatically login. After connecting your phone will ask if you would like the app to enable a VPN Connection. Please click Ok.

Access Server Pr..

DISCONNECTED

Connection request

OpenVPN Connect wants to set up a VPN connection that allows it to monitor network traffic. Only accept if you trust the source.

appears at the top of your screen when VPN is active.

CANCEL OK

This should now be connected. Next time you need to connect you should be able to just load the app and click on the switch to login.
